

## Introduction

The Ideal 7D Customer Display connects to your Idealpos System to display customer advertising and products as they are sold. This stylish, modern 7" wide-screen display can be attached to the IT-120 POS Terminal or pole mounted with an adjustable viewing angle.

Your Customers can view full colour images or movies while being served at the Point of Sale!

## Key Features

- ✓ Display Still Pictures or Movie Files
- ✓ Can be mounted to Idealpos IT-120
- ✓ Choice of 3 or 7" Pole
- ✓ Full supported with Idealpos Software
- ✓ Crystal Clear 7" Wide Screen Display

## Display Still Pictures or Movie Files

Idealpos will display JPG, BMP, PNG and AVI Movie Files and you can set the length of time in seconds to display each image. You can also display your company logo and clerk name.

## Various Mounting Options

The Ideal 7D Customer Display can be mounted on a stand with a choice of 3" and 7" Pole including a stable rectangular base. You can also mount directly to an Idealpos IT-120 POS Terminal. The Ideal 7D Customer Display has standard VESA Mounting so it can be fitted to most 3<sup>rd</sup> party mounting products.

## Crystal Clear Display

The Ideal 7D Customer Display supports a screen resolution of 800x600 pixels for a superb, crystal clear appearance.

## Supports VGA Display using Extended Desktop

The Ideal 7D Customer Display works with the Extended Desktop Feature built into Windows and is powered using 12V DC.
